

The Milwaukee Veterinary Medical Association invites all DVMs, and CVTs to:

Ophthalmic Emergencies

Ophthalmic emergencies can be stressful for the veterinarian and their staff, not to mention the client and patient. We will review some of the most common cases presented on emergency basis and discuss tips for diagnosis and appropriate management.

Presented by:

Peter Accola, DVM, MS, DACVO
Wisconsin Veterinary Referral Center
Waukesha, WI

Dr. Accola received his Doctor of Veterinary Medicine from the University of Wisconsin School of Veterinary Medicine in Madison, Wisconsin. He received his Masters of Veterinary Ocular Pathology and completed his residency at the University of Georgia College of Veterinary Medicine in Athens, Georgia.

Dr. Accola completed the Small Animal Medicine and Surgery Internship at VCA South Shore Animal Hospital in Weymouth, Massachusetts. He previously worked at Massachusetts Veterinary Referral Hospital in Woburn, Massachusetts and Veterinary Emergency Service in Middleton, Wisconsin.
