

MVMA

The Milwaukee Veterinary Medical Association invites all DVMs, and CVTs to:

Solving the Allergy Puzzle

Objectives:

- Discuss the varying clinical signs that are associated with allergies.
- Discuss diagnostic tests used in dermatology to rule out other causes of pruritus.
- Evaluate current treatment options that can provide relief for dogs with allergies.
- Review case examples of dogs with allergies that require multi-modal therapy to control symptoms.

Presented by:

Amy Haarstad, DVM, DACVD **Haarstad Veterinary Dermatology** Maple Grove, Minnesota

Dr. Amy Haarstad graduated in 2001 from North Carolina State University College of Veterinary Medicine. After graduation, Dr. Haarstad completed a one-year internship at Purdue University. She then returned to the Twin Cities and worked at a small animal practice for nine years. After her time in general practice, Dr. Haarstad participated in a three-year veterinary dermatology residency at McKeever Dermatology Clinics. She was board certified by the American College of Veterinary Dermatology (ACVD) in 2014. Haarstad Veterinary Dermatology (HVD) was founded in the fall of 2017. HVD

is a mobile practice that brings dermatology specialty services directly to clients and patients in their primary clinic. Dr. Haarstad grew up in Maple Grove, MN and still lives there with her husband, Steve, their three daughters and pets. As a family, they enjoy a yearly trip to the Boundary Waters Canoe Area (BWCA) and playing volleyball.
